Teaching Entrepreneurship

One day Beginner

Course details

This is a self-paced online course for educators in higher education of all disciplines that wish to integrate entrepreneurship into their classroom and are interested to learn how to teach through entrepreneurship and encourage their students and peers to develop an entrepreneurial mindset.

The entreTime project has been an EU initiative, implemented by the consortium led by Strascheg Center for Entrepreneurship, and supervised by the DG GROW, DG EAC, ETF, JRC and EISMEA.

Following the philosophy "teaching through entrepreneurship" the entreTime programme's objective is primarily to strengthen the understanding of and address the need for entrepreneurship in higher education and to awaken the entrepreneurial mindset of educators by developing their competencies based on the entrepreneurship competence framework (EntreComp).

Quiz

- Module 4 Quiz

Video 1 - Why do Entrepreneurial Skills matter?

Prof. Alistair Fee | European Innovator and Business Ideas Specialist

Entrepreneurial skills are needed in a competitive world. As Alistair mentions, the world is quite a competitive chessboard, but we must let entrepreneurs be heard.
