RECORD OF PERSONAL DATA PROCESSING ACTIVITY

Based on Article 31 of the Regulation (EU) No 2018/1725 on the protection of natural persons with regards to the processing of personal data by the Union Institutions, bodies, offices and agencies and on the free movement of such data, each responsible EISMEA data controller has to maintain a record of the processing activities under his/her responsibility.

The Early Detection and Exclusion System (EDES) is the data base of the European Commission to reinforce the protection of the Union's financial interests and ensure sound financial management, by early detection of persons or entities which may represent a risk to the financial interests of the Union, to exclude persons or entities which are in an exclusion situation referred to in the EU Financial Regulation, to impose a financial penalty if applicable, to publish on the European Commission's public website information of exclusion and financial penalties, if applicable, to reinforce the deterrent effect (previous Early Warning System (EWS) and the Central Exclusion Database).

The processing activity is based on Articles 135 to 144 of the EU Financial Regulation (FR) and is centralised in the EDES database (EDES DB) set up and managed by the European Commission.

The information is entered in the EDES DB by the competent authorising officer responsible of the Agency, by Commission Services or other EU Institutions, bodies, offices and agencies. The European Commission controls and validates the cases. The information on possible EDES registration is incorporated in the Legal Entity Files (“LEF”), for all entities (legal and natural persons) with whom the Commission and the Agency have financial dealings (such as contracts, payments, grants etc.).

In absence of a final judgment or final administrative decision related to the exclusion, the competent authorising officer responsible refers a case to the EDES Panel for a central assessment or to the application of a financial penalty (Article 143 FR). The EDES Panel issues recommendations, including on its duration and their publication and ensures the rights of defence of the economic operator.

Entities implementing the budget under indirect management (Articles 142(5) and Article 62(1)(c) of the Financial Regulation) will have access to the information on exclusion decisions, to enable them to verify whether there is an exclusion in the system with a view to taking this information into account, as appropriate and on their own responsibility, when awarding contracts in budget implementation. This qualifies as an important reason of public interest, since the ultimate purpose of EDES is the protection of the Union’s financial interests. No natural persons are currently excluded in the EDES Database, so for the moment there are no international transfers of personal data outside the EU.
1.9. The processing of this personal data will not include automated decision-making (such as profiling).

1.10. The following technical and organisational security measures are in place to safeguard the processing of this personal data:

All personal data are stored on the servers of the European Commission. All processing operations are carried out pursuant to the Commission Decision (EU, Euratom) 2017/46 of 10 January 2017 on the security of communication and information systems in the European Commission.

In order to protect personal data, the Commission has put in place a number of technical and organisational measures. Technical measures include appropriate actions to address online security, risk of data loss, alteration of data or unauthorised access, taking into consideration the risk presented by the processing and the nature of the personal data being processed. Organisational measures include restricting access to the personal data solely to authorised persons with a legitimate need to know for the purposes of this processing operation.

1.11. The personal data concerned will be kept for the following periods:

Pursuant to Article 142 (4), 3rd subparagraph FR, information is registered for a maximum duration of 1 year from the validation by the Commission and automatically removed at the end of this period.

If, during this period, the Authorising Officer requests the Panel referred to in Article 143 FR to issue a recommendation in an exclusion case, the retention period may be extended until the Authorising Officer has taken a decision (Art 142(4) FR).

In other cases, as soon as it is no longer justified, the information on early detection is closed by the authorising officer.

For Exclusion the duration of the exclusion shall not exceed:

a) Five years for cases referred to in Article 136 (1) (d) FR (in cases of fraud, corruption, participation in criminal organisation, money laundering, offences linked to terrorist activities, child labour or other forms of trafficking in human beings);

c) The duration, if any, set by the final judgment or the final administrative decision of a Member State;

In the cases of Article 136(1) (a) and (b) FR, the duration of the exclusion will correspond with the period in which the exclusion ground is valid (bankruptcy, insolvency or winding–up procedures, or an analogous situation, non-payment of taxes or social security contributions).

Any decision of the authorising officer or any recommendation of the panel referred to in Article 143 FR on the proposed duration of the exclusion shall be made in compliance with the principle of proportionality (Article 136 (3) FR). A published information on exclusion will be removed as soon as the exclusion has come to an end (see Article 140, 4th subparagraph FR).

For Financial Penalty, if the relevant information has been published, the publication shall be removed six months after payment of that penalty (Article 140, 4th subparagraph FR).

Removed information on early detection, exclusion and/or financial penalty shall be accessible for audit, investigation purposes and for the purposes of the preliminary classification in law due to the fact that the "recurrence" is a criterion to be taken into consideration for the recommendation of the Panel referred to in article 143 (pursuant to article 136 (3) of the FR). The removed information shall not be visible for the users of the EDES database. The additional period that this information will remain in the EDES-DB shall not exceed five years after the removal of the information, in line with Article 75 FR.
1.12. **Data Subjects are informed** on the processing of their personal data via a **data protection notice on their rights** in the respective calls for tenders, calls for proposals and calls for expression of interest/invitations to for experts and in their respective contracts as well as I the notification from the EDES panel and the authorising officer responsible on how:

- of recourse at any time to the **EISMEA Data Protection Officer** at EISMEA-DPO@ec.europa.eu and to the **European Data Protection Supervisor** at https://edps.europa.eu.

**Request from a data subject to exercise a right** will be dealt within one month unless for very complex cases. All request have to be made in writing and any modification to an existing EDES case will have to be duly justified and will be subject to the approval of the European Commission.

The right to information, access, rectification, erasure, restriction or objection to processing, communication of a personal data breach or confidentiality of electronic communications may be restricted only under certain specific conditions as set out in the **applicable Restriction Decision** in accordance with Article 25 of Regulation (EU) 2018/1725.

Any queries concerning the processing of personal data, have to be addressed to the Data Controller responsible for the procedure identified in the applicable Data protection notice (for EISMEA at EISMEA-EDES@ec.europa.eu).
