Tips and tricks for successful proposal 1

• Read carefully the Call document & FAQs. Get to know/prepare templates & annexes.

• Think like / write for an evaluator: focus / address all award criteria and their elements - you will be assessed on them.

• Structure the info (50-page limit!) – be specific, stay in scope, use quantification and clear presentation of the planned work/tasks, be consistent across the proposal. Write in reader-friendly manner. Avoid long sentences/descriptions & abbreviations.

• What makes your project special? Do not repeat what is in the call but describe your proposal’s specific contribution / particular idea.

• Check completeness of your proposal - remember about annexes – do not forget Annex 5!

• Submit earlier = do not wait until the last minute with the submission.
Tips and tricks for successful proposal 2

• **Build detailed and complete budget** – it must reflect deliverables / activities / description in the proposal.

• Prepare **cost-effective budget** – budgetary items must be necessary for the project execution.

• Clearly describe **division of tasks and responsibilities** between partners in the Consortium.

• Remember that – if successful – **you will need to execute this in practice** - we evaluate the proposals as they are so write as if no further improvements can be made.

• Success = setting **ambitious but realistic goals**.
Tips and tricks for successful proposal 3

- **Find your partners & build a collaborative Consortium:**
  - partner search [database](#) on Funding & tenders portal + Enterprise Europe Network Cooperation Opportunities [Database](#)
  - include partners only upon their [consent](#)
  - consult experienced / former applicants.

- **Get support:**
  - [IT Helpdesk](#) for forgotten passwords, access rights / roles, technical aspects of submission of proposals, etc.
  - [Online Manual](#) for applying via Funding & tenders portal
  - [EISMEA-SMP-COSME-ENQUIRIES@ec.europa.eu](mailto:EISMEA-SMP-COSME-ENQUIRIES@ec.europa.eu) for non-IT related questions (to be sent by 30 November 2023) ⇒ replies in [FAQ](#)

Registration of an organisation (at proposal stage)

If you want to participate in a call for proposals or in a call for tenders with eSubmission, your organisation needs to be registered and have a 9-digit Participant Identification Code (PIC). Please quote your PIC in all correspondence with the Commission.

The register contains all participants of EU programmes.

Is your organisation already registered?

Search a PIC

Register your organisation

To register your organisation or as a natural person, you need to login into the Portal or, if you are a new user, create your account.

Check what information you need to register in the Online Manual - and keep it to hand during the registration procedure. To start registration, click on the button below.
How to register in the Participant Register

Identification (duplicate check)
(e.g. Legal name, VAT number)

Organisation data

Legal information

Authorised users
(e.g. Name, e-mail address of the self-registrant and the back-up)

Registration completed

New Participant Identification Code (PIC) in a “declared” status
Organisations have to register in the Participant Register. Based upon legal documents required. Mandatory for all validated participants. Financial Capacity Assessment if needed. Communication via Participant Register.
REA Central Validation Service (REA CVS)

- Verifies legal existence and legal statuses of entities
- Validates the appointment of Legal Entity Appointed Representatives (LEARs)
- Validates legal changes of validated entities
- Assesses universal takeovers (UTROs) of validated entities
- Creates Legal Entities and Bank Account Files
- Prepares the Financial Capacity Assessment for RAO
- Performs ownership control analyses for specific programmes
- Performs ex-post status verifications (e.g. SME & MID cap status checks)
Legal validation

- Registration data is verified by REA Central Validation Service before the signature of the Grant Agreement or Contract.
- The legal validation of a participant in the Single Electronic Data Interchange Area (SEDIA) is done once, when the entity has to sign its first Grant Agreement or Contract.
- It is reused for future participations in EU grant and procurement actions.
Validation Rules

• Validation is always performed on the basis of supporting documents, in accordance to EU Financial Regulation and the Rules on Legal Entity Validation, LEAR Appointment and Financial Capacity Assessment for EU Grants and Tenders

• Validation is required for all beneficiaries and affiliated entities

• PICs of affiliated entities, frequently included in the consortium during the GAP, must be introduced in the Funding & Tenders Portal's Grant Management Service System
Legal Entity Validation Documents

- **Legal Entity Form** (template to be completed, dated, stamped and signed)

- **VAT extract** (< 6 months)
  - If not registered for VAT – *proof of VAT exemption*

- **Registration extract** (<6 months) – for private law bodies
- **Law/decree/decision** – for public law bodies
- **Treaty** – for international organisations
- **Statutes** – for non-profit organisations

All communication to -and from- participants is exclusively managed through the Participant Register.

Messages are notified via e-mail to the contact person (i.e. self-registrant or the appointed LEAR).
Lost access – PIC account

Declared/Non valid PIC

• In case the self-registrant left the organisation and no one has access to a non-valid PIC – a new PIC needs to be created and REA CVS informed

Valid PIC

• If the LEAR is not available anymore and there are no Account Administrators, a new LEAR needs to be appointed – LEAR recovery procedure

B. Subcontracting

- **Purchase of goods, works or services** related to the implementation of specific tasks which are part of the action
- Autonomous - no direct supervision by the beneficiary (as opposed to in-house consultants)
- Allowed, under following conditions:
  - Described in Annex 1
  - Budgeted in Annex 2 or ex post approved
  - If above 30% of total eligible costs – must be justified in the application
  - Can be declared only as actual costs incurred
  - Best value for money or lowest price
  - No conflict of interest
### Subcontracting

Give details on subcontracted project tasks (if any) and explain the reasons why (as opposed to direct implementation by the Beneficiaries/Affiliated Entities).

**Note:** Subcontracting concerns the outsourcing of a part of the project to a party outside the consortium. It is not simply about purchasing goods or services. We normally expect that the participants have sufficient operational capacity to implement the project activities themselves. Subcontracting should therefore be exceptional.

Include only subcontracts that comply with the rules (i.e., best value for money and no conflict of interest; no subcontracting of coordinator tasks).
